# Brookside Slab

## A New Classic

Designed for patios and walkways, Brookside Slab features a slate-like surface that will add refinement to any landscape. Brookside is manufactured using strict height tolerances insuring that slabs are level and consistent. Fine aggregates, and high cement content make up the facemix, resulting in an extremely durable surface and bold colours. Brookside is available in three colours, making it a great choice for any space it's placed in.

## INSTALLATION NOTES

Brookside comes in a rectangular or square option. They can be installed using one size only, in a running bond or herringbone pattern, or combined to create a random pattern. Make sure to include a 2-5mm gap between each unit. This will provide

enough room for the jointing sand and make installation easier. For more in depth installation guides for specific products, visit [BarkmanConcrete.com](http://BarkmanConcrete.com).
