BP Mystique Asphalt Shingles

Protected by Weather-Tite™ technology.

Protect your investment with BP's affordable, double layer laminate shingle. Choose from a superb pallet of vintage colours designed to match your homes' curb appeal.

UltraVic Metal Roofing

Economical low-maintenance roofing solution.

UltraVic metal roofing profile is a classic metal roofing that is easy to install. This steel profile has a 36-inch coverage area per sheet, with exposed fasteners allowing for quick installation. UltraVic Metal Roofing is available in 28 gauge steel and a variety of colours.

Signature Matte

Lead colours may vary on Matte Finishes. Please contact your local M&Y for colour availability.

DIY Sheds

Build your own shed

Looking for a building project this summer? Build your own shed!

We make it easy with our easy to follow building instructions that are included with every shed -- and we mean every shed! Whether you choose the unassembled package for any of our sheds available in this brochure, or custom design your own, we will delivery the materials right to you with building instructions and all the hardware you need! Our material packages include pre-manufactured roof rafters and all the material required to finish building your shed.

Whats included

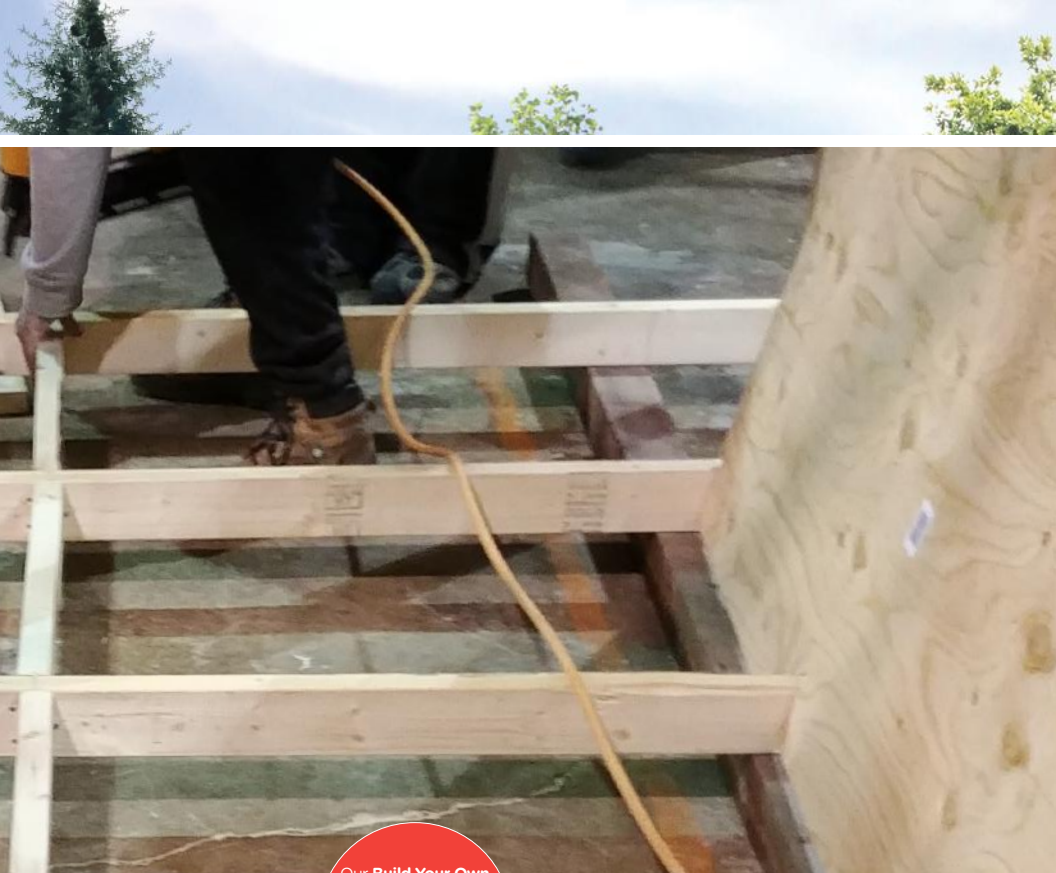

- 4x8-7/16" OSB Roof and Wall Sheathing
- PWF floor joists
- Pre-manufactured roof rafters
- BP Mystique Asphalt Shingles
- Building instructions complete with nails and hardware

Finishing Options

Sky's the limit!

With just a few coats of quality PPG paints, your favourite siding or even stone, you can customize the look of your shed to match your home.

Choose from your favourite paint colour, our wide selection of siding or even stone, decorate and finish your new shed however you want! Did you know with wooden sheds, you have the ability to customize the inside space too? It's true! Add some shelves, or some hooks (see page 15) for additional storage solutions wherever you want!

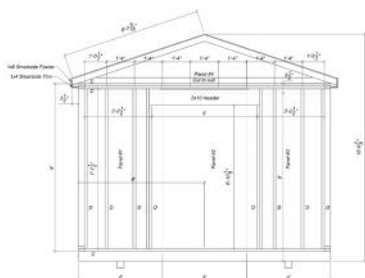

Our **Build Your Own Shed** Packages come complete with **step-by-step** building instructions

Wall & Framing:

1. Set two long 2x4 (C) studs by side on the ground.
2. Starting at one end, mark with a line and an "H" at the 16" intervals.
3. Cut the 2nd wall studs (S) according to lengths in plan.
4. Nail the double studs together before attaching to foundation plates.
5. Lay the bottom plates and the first stud on edge and nail them together with 3 1/2" nails.
6. Nail the rest of the studs according to the dimensions on drawing.
7. Cover all of the studs on attached to the bottom plate, attach the window sill and headers and then nail the 2 top plates on edge and nail it to the studs.
8. After all are raised, it is important to square the wall. This is done by measuring diagonally across corner to corner. Adjust frame accordingly and make diagonal is equal in length.

Material Set for Wall Framing (A):

- 12 - 2x4 8'
- 4 - 2x4 16'
- 1 - 2x10 8' header
- 4 - 4'x6" LP SmartSide Panel Siding

Storage Solutions

From bikes and ladders to tools, we have all your hardware essentials hooks to organize your shed, or workshop!

For use on wooden applications, each hook is coated in a black vinyl finish that helps protect against scratches and scuffs.

Our **Bike Hook** holds up to 60lbs!

Our **Tool Hook** holds up to 20lbs!

Our **Ladder Hook** holds up to 20lbs!
