Build your own shed

Looking for a building project? Build your own shed!

We make it simple with our easy to follow building instructions that are included with every shed -- and we mean every shed! Whether you choose the unassembled, material-only package for any of our sheds available in this brochure, or custom design your own, we will deliver the materials right to you with building instructions and all the hardware you need! Our material packages include pre-manufactured roof rafters and all the material required to finish building your shed.

Whats included

- 4x8-7/16" OSB Roof and Wall Sheathing
- PWF floor joists
- Pre-manufactured roof rafters
- Your choice of BP Mystique Asphalt Shingles, or Metal Roofing
- Building instructions complete with nails and hardware

Finishing Options

Sky's the limit!

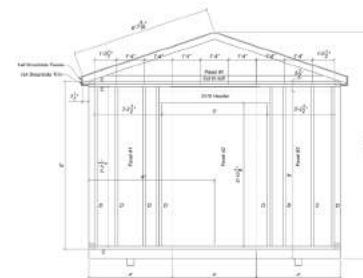

With just a few coats of quality SICO paints, your favourite siding or even stone, you can customize the look of your shed to match your home.

Choose from your favourite paint colour, our wide selection of siding or stone, and decorate and finish your new shed however you want! Did you know with wooden sheds, you have the ability to customize the inside space too? It's true! Add some shelves, or hooks (see page 21) for additional storage solutions wherever you want!

Our **Build Your Own Shed Packages** come complete with **step-by-step building instructions**

- Wall A Framing:**
1. Set two long 2x4 (2) studs by side on the ground.
 2. Starting at one end, mark with a line and an "x" at the 16" intervals.
 3. Cut the 2x4 wall studs (2) according to lengths on plan.
 4. Lay the double studs together before attaching to foundation.
 5. Lay the battens plate and the first stud on edge and nail together with 16" nails.
 6. Nail the rest of the studs according to the dimensions on drawing.
 7. Check all fit studs are attached to the bottom plate, adjust if needed and seal between and wrap with 2" tape on edge and nail to the studs.
 8. After all are nailed, it is important to square the wall. This is done by measuring diagonally across corner to corner. Adjust frame accordingly until each diagonal is equal in length.

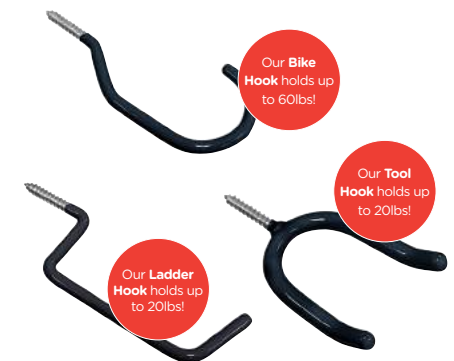

- Material List for Wall Framing (A3):**
- 12' 2x4x8"
 - 4' 2x4x8"
 - 1' 2x10x8" Header
 - 4' 4x8" LP SmartSide Panel Siding
